

How To:-

Search:

Search for pokemon by name or #

Name: pikachu

#: 25

Type: electric

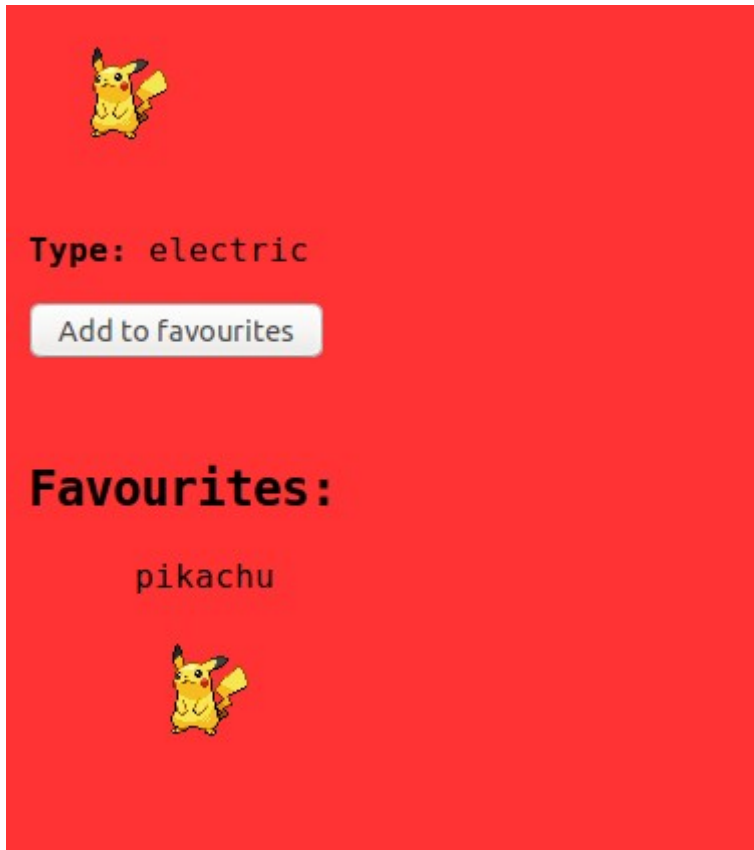

To search for a pokemon, simply type the pokemon name or number into the search bar and click the search button. The pokemon should appear with its respective name, number, picture and type(s).

Compare:

<p>Search for pokemon by name or #</p> <p><input type="text" value="pikachu"/> <input type="button" value="Search"/></p> <p>Name: pikachu</p> <p>#: 25</p>  <p>Type: electric</p>	<p>Search for pokemon by name or #</p> <p><input type="text" value="golduck"/> <input type="button" value="Search"/></p> <p>Name: golduck</p> <p># 55</p>  <p>Type: water</p>
---	---

To compare two pokemon there is a second search bar that will bring up any other pokemon's stats. This allows the user to see a side by side comparison of two different pokemon.

Favourite:

Under the first search form, there is an “Add to favourites button”. Clicking this sends the searched pokemon into a favourites section. When a pokemon is favourited, instructions are given to the user on how to remove the pokemon if they wish to. This simply involves clicking on the favoured pokemon.

Find All Pokemon:

To search through a list of all available pokemon, the user has seven buttons corresponding with the seven generations of pokemon. The user can click the buttons to toggle a list of pokemon from the respective generation of the button.
