

How To:-

Search:

**Search for pokemon by name or #**

**Name: pikachu**

#: 25

**Type: electric**

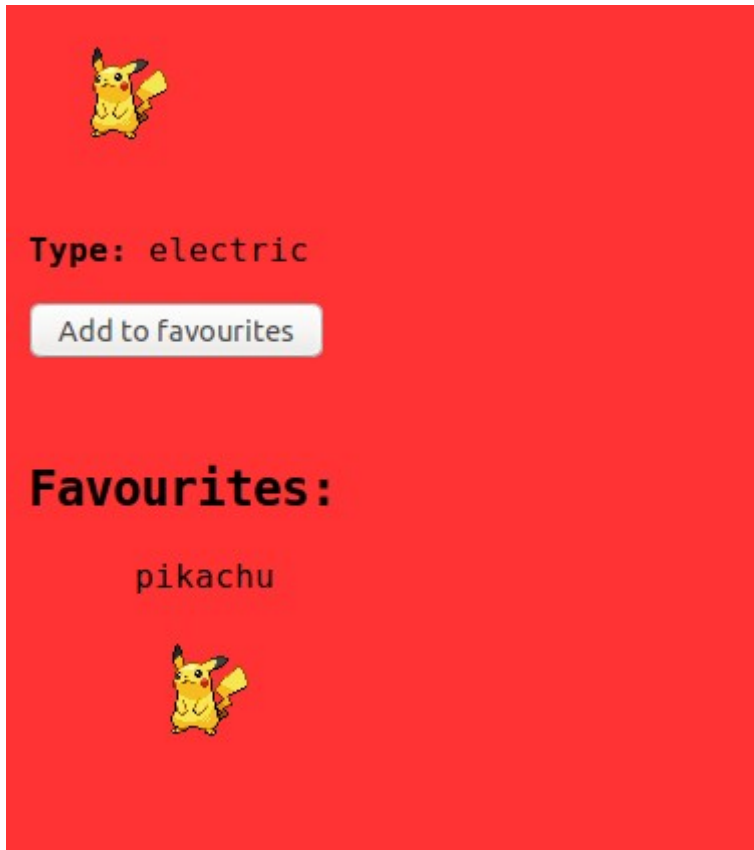

To search for a pokemon, simply type the pokemon name or number into the search bar and click the search button. The pokemon should appear with its respective name, number, picture and type(s).

Compare:

<p><b>Search for pokemon by name or #</b></p> <p><input type="text" value="pikachu"/> <input type="button" value="Search"/></p> <p><b>Name: pikachu</b></p> <p>#: 25</p> <p></p> <p><b>Type: electric</b></p>	<p><b>Search for pokemon by name or #</b></p> <p><input type="text" value="golduck"/> <input type="button" value="Search"/></p> <p><b>Name: golduck</b></p> <p># 55</p> <p></p> <p><b>Type: water</b></p>
--	--

To compare two pokemon there is a second search bar that will bring up any other pokemon's stats. This allows the user to see a side by side comparison of two different pokemon.

Favourite:

Under the first search form, there is an “Add to favourites button”. Clicking this sends the searched pokemon into a favourites section. When a pokemon is favourited, instructions are given to the user on how to remove the pokemon if they wish to. This simply involves clicking on the favourited pokemon.
